CONSUMER SAFETY WARNING

This product contains both Methylene Chloride and Perchloroethylene which are suspected of causing cancer. Use Personal Protective Equipment as required. Use in a well-ventilated area. Do not eat, drink or smoke when using this product.

Please refer to Safety Data Sheet before use for more details.

Dy-Mark® PROTECH® ELECTRICAL CLEANER

Dy-Mark® PROTECH® Electrical Cleaner is formulated as a cleaner/degreaser for the effective removal of grease, oil, wax, dirt and other contaminants from electrical motors and equipment. Suitable for most heavy duty applications. It has no flash point, no fire point, is non corrosive, non staining, dries quickly and leaves no residue. This product does not contain carbon tetrachloride, silicones, CFC113, trichloroethylene or tetrachloroethylene.

PROTECH® Electrical Cleaner is Non-Flammable.

FEATURES & BENEFITS

- Methylene Chloride and Perchloroethylene are fast drying solvents and are also used for their non-flammable properties and for their strong cleaning and degreasing power
- Fast evaporation and fast cleaning
- Non-Flammable Electrical equipment cleaner
- No flash point, no fire point
- Non staining, non-corrosive, leaves no residue
- Does not contain silicones, trichloroethylene and is propyl bromide free
- Uses a 360 degree valve for upright and inverted applications for hard to reach areas
- Strong spray action for ease of cleaning

DIRECTIONS FOR USE

Recommended Uses:

Generators, forklifts, electric motors, switches, plus controls, circuit breakers, coils, fuse holders, laboratory equipment, mechanical and electrical parts and other uses.

It is advisable to test on a sample before use. Maybe harmful to certain plastics. Do not use on plastics such as Acrylic, ABS and Polycarbonate. For all precision instruments, check with manufacturer. Not for use on sensitive electronics, computers, tape decks or VCR's.

Preparation:

De-activate and isolate equipment before use. Do not use on energised equipment. Shake can well. Shake can occasionally during use.

Application:

360° valve enables spraying in upright and inverted positions. Do not spray at 45° angle. Spray parts generously and allow to run off. Use extension tube for hard to reach areas. Dry with soft cloth or air dry. Allow product to dry completely and thoroughly. Repeat application if necessary. **Vent the system before restoring power.**

TECHNICAL DATA

Size:	400g Aerosol
Colour:	Clear
Consistency:	Liquid
Propellant:	Carbon Dioxide
Boiling Point:	86°C (Initial)
Evaporation Rate:	Fast
Flammability:	Non-Flammable
Flash point:	None

STORAGE

Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/ 122°F. Store in a well-ventilated place.

DISPOSAL

Dispose of contents/container according to regional regulations.

DISCLAIMER

The information provided within this Technical Data Sheet is intended as a guide only. The performance of this product will depend on many factors outside the control of Dy-Mark®; including surface preparation, surface-specific conditions, surface types, correct application and environmental conditions.

Dy-Mark® recommends customers undertake their own risk assessment prior to use, to determine the suitability of the product for the particular use intended.

It is essential that a sample of the product be applied to the intended area of use to ensure it is acceptable in appearance and finish and that it performs on the specific surface.

For further information please contact the Dy-Mark® Sales and Customer Support Centre on 1300 396 275.
