

ASSEMBLY INSTRUCTIONS

Dy-Mark

Mine Marking Handle 5m Aluminium Ref Code: 38100603

Step 1 - Align can holder with the handle as shown in the diagram on the left.

Step 2 - Turn handle clockwise until the thread has tightened. Unwrap pull chord. Now it is ready for use.

Note: Only compatible with cans which have the upright/inverted spray nozzle (Trigger Cap), as shown below:

Example of can ready for use:

DIRECTIONS FOR USE

Dy-Mark

Mine Marking Handle 5m Aluminium Ref Code: 38100603

STEP 1 Turn the trigger actuator out of the way so there is clearance for the aerosol can to be inserted.

STEP 2 Insert aerosol can into can holder. **Note:** Only compatible with cans which have the upright/inverted spray nozzle (Trigger Cap), as shown below:

STEP 3 Align the trigger actuator with the cap trigger. In this position, when the pull chord is pulled, the aerosol can will be actuated.

STEP 4 Push the red button to enable the handle to be extended to the desired length. Lock into position using one of the preset slots.
