10.0 INTRODUCTION:

Dy-Mark Protech range of Industrial grade cleaners and lubricants have been specially formulated for the professional who requires high performance results in Industrial applications.

Dy-Mark PROTECH Dry PTFE Lubricant is a multi-purpose dry film lubricant. It will penetrate and bond to metal, wood, rubber and most surfaces and will form a non-staining micro thin film that prevents sticking, reducing friction and wear. It will seal out moisture, inhibit corrosion and resists oil, dust and dirt build up. Will not melt, freeze or wash off.

11.0 RECOMMENDED USES:

Hinges, chains, window tracks, locks, conveyers, cutting blades, saw blades, sliding drawers, sliding doors, and other uses.

(Plus show smaller version of pictures from front of can)

12.0 DIRECTIONS:

Shake can for at least 45 seconds **AFTER** the mixing ball begins to rattle. Shake can occasionally during use. Clean and dry surface area thoroughly. Spray can in **UPRIGHT** position only. Spray light even film directly onto surfaces. Leave film to dry minimum 10-15 minutes. Full cure in 24 hours. Repeat application when needed for long term dry film lubrication and protection, allowing it to dry between applications.
